

School Trips – 2017 to 2019

To assist parents in making decisions about the school trips in which their children may participate we have published the planned residential trips for the next two years in the table below. In addition to residential trips, various single day trips will be organised to enrich students' experience of the curriculum. Day trips are typically offered at a lower cost to parents and you will be made aware of details nearer the time. The information contained within this document may change and at this stage the trips outlined are provisional and not confirmed.

Trip	Proposed Date	Destination	Year Group	Duration	Approx. Cost
Science/Geography	October 2017	Iceland	Years 9 – 12	4 nights	£999
