Dear Parent

## Coronavirus (Covid-19)

As the situation evolves nationally regarding Coronavirus (Covid-19) I felt it would be helpful to provide you with an update from the school's perspective.

We continue to emphasise the basics to students: catch it, bin it and kill it. Soap and hot running water is available to students in all toilet blocks. They need to ensure they wash their hands using hot water and soap regularly throughout the school day. In particular, students who have travelled on public transport should wash their hands on arrival in school and all students should do so after using the toilet and before eating food. To assist with hand hygiene we have located dispensers containing hand sanitiser in several locations around school although I am sure you will appreciate that refill cartridges are in short supply.

Overall, the students have good knowledge and understanding of Covid-19. To support their understanding, the Science department has planned lessons to deliver to students in Years 7, 8 and 9 on the topic of hand and respiratory hygiene, and information for students has been posted in different locations around school and on the daily bulletin that is shared during tutor period.

Those parents whose children are due to participate in the forthcoming ski trip will be aware that further restrictions have been placed on travel in Italy in light of the increasing number of cases. We are in regular contact with the tour operator and will provide further information to parents as soon as it becomes available.

Finally, please do make school aware if you have concerns regarding your child(ren)'s health or that they may have had contact with someone suffering with the virus. We will continue to post any relevant information in the [Coronavirus section](#) of the school website.

If you have any queries, please do not hesitate to contact school.

Yours sincerely

D A Mackenzie  
Headteacher
