

Sixth Form @ Formby High School

**DREAM IT. DO IT.**  
*Your future starts here!*

**SPECIALIST  
FACILITIES**

The Sixth Form Centre offers students the opportunity to study and socialise in their dedicated accommodation, including the Common Room and Study Areas. A dedicated Sixth Form terrace can be accessed providing outdoor tables and seating along with a table tennis table. During periods of good weather students can book the tennis courts and football cages for use during breaks and lunchtime.

We have two dedicated independent study centres that provide students with a quiet area to work during study periods, before and after school.

Both the 'O5 Independent Study Centre' and the 'OTC' are equipped with over 40 computers linked to the school network, each has access to the internet, Microsoft Office and subject specific software. Computers are accessed by using individual usernames and passwords issued to all students. There are printers situated within both study centres.

All printers within the school are networked, allowing students to collect work they have scheduled to print from any printer situated on site.

The Sixth Form Centre has full Wi-Fi coverage to enable students to work in any room using their own devices.

# LIBRARY

We have a stock of over 10,000 resources covering all subjects, as well as general fiction novels and a wide selection of journals. We update our stock on a regular basis keeping up to date with exam board specifications. All of our resources are catalogued on our Library Management System, Oliver V5, and can be accessed by all students who can view library stock availability using the online Oliver V5 library software. Most of our resources are laid out according to the Dewey Decimal System in subject areas, making resources easy to locate; however, if you need any help locating a particular item or subject area, please ask the Librarian.

The School Library is open for student access at breaks, lunchtimes and after school with school networked PC's & laptops for student use.

In addition to providing access to non-fiction and fiction books the Sixth Form Library will provide students with access to a range of journals covering A Level subject areas for use within the Library. The Library will also provide students with careers related guidance and access to Higher Education Prospectuses and information.

Students also have the opportunity to support the work of the School Library by volunteering as library assistants in free periods and assisting with guided reading for younger students.

Our Creative Arts team have access to a range of well-equipped specialist facilities. From our 150-seat Creative Arts Theatre with computer-controlled lighting and sound to our Dance Studio, music classrooms, recording studio and music practice rooms, there really is something, and somewhere, for everyone to develop the creative passions. We also access performance spaces across the region including the Atkinson, Edge Hill and the cathedrals.

# STEM

We are proud of the investment made, over recent years, in upgrading and enhancing our facilities for Science, Technology, Engineering and Mathematics. To support the development of our STEM curriculum, we have a specialist Science building with 8 laboratories, seminar rooms and specialist Science ICT suites.

Our school-wide ICT suites are fully equipped with PCs, printers and interactive screens. Our Engineering workshop is fully equipped with machinery, computers, laser printers and 3D printers. We have exciting and ambitious plans to expand this facility in the near future ... watch this space!

Within our main School Hall Complex, we have an excellent suite of spaces suitable for larger events, with ICT facilities and catering locations. Entry into the building is easily accessible from the car park and signage will be provided to direct delegates to the required location. The School Hall can accommodate up to 250 delegates in theatre style seating and is used regular for special events, assemblies, careers activities and workshops.

The Dining Rooms are ideally situated next door and provide ample space for lunchtime dining.

And don't forget our dedicated Sixth Form Coffee Shop and snack bar, open throughout the day in our Common Room.
